

Golf Cart, Utility Vehicle and All-Terrain Vehicle Safety Recommended Daily Checks

- Brake, tail and head lights and turn signals are in working order
- Proper tire inflation; no cuts or punctures
- Battery fluid leaks; check for wet spots under Cart
- Clear windshield and mirrors
- Steering is normal
- Brakes work properly
- Forward and reverse gears are operational

Inspect each Cart daily, prior to use. If the Cart is in need of repairs or maintenance, the Cart should be taken out of service. Report any damage or maintenance needs to your supervisor immediately. If you have any other questions, please contact FSU Environmental Health & Safety at 850-644-6895.
